

KMLVISION

KML VISION is a growing innovative IT company based in Graz, Austria. We offer our employees the opportunity to shape the future of digital image analysis in Life Sciences, powered by Artificial Intelligence and Deep Learning, delivered by state-of-the-art cloud computing technology via the IKOSA® platform.

UI/UX Designer, part-time 16h (m/f)

For the user-facing part of our IKOSA® platform, we are looking for a **talented and creative UI/UX designer** (m/f) with skills in designing responsive web applications and the right instinct for the usability needs of our users. Your main task is screen and UI component design regarding new IKOSA® features. During implementation you will work closely together with our frontend and product development team.

YOUR PROFILE

- Proven work experience as a UI/UX Designer and/or portfolio of design projects for responsive web applications.
- Experience with screen design (Adobe XD) and graphic technologies (Illustrator, CSS).
- Design graphical UI elements based on user stories, with particular focus on high usability.
- Desire to look for best-practice examples and add a new touch for that certain something.
- Conduct layout and usability adjustments based on user feedback.
- Ability to work independently and responsibly.

OUR OFFERS

- **Part-time** (16h/week) employment, remote work is possible.
- Start date: immediately.
- Be part of a strong team in an interdisciplinary environment.
- Flextime and a high degree of self-management.

WHY YOU SHOULD APPLY

- Contribute to next-generation image analysis applications based on AI and Deep Learning.
- Reasonable working hours.
- Extend your skills and work experience in a professional environment.
- Minimal annual gross salary according to the Austrian collective agreement 2019 for IT is EUR 25,480 for full-time employment (38.5 hours per week).
- Your actual salary depends on your experience and qualifications.

ABOUT KML VISION

With a strong scientific background and network, KML VISION is a thriving company, focusing on delivering the newest advances in automated digital image analysis to the Life Science sector. We develop the IKOSA® online platform, where Deep Learning technology powers our streamlined, intuitive applications. Hence, our clients immediately benefit from the most recent breakthroughs in Artificial Intelligence right at their fingertips. We create value by automating tasks that previously could only be performed by humans.

- Our passion is to develop high quality image analysis applications for object classification, segmentation, object detection and provide it as a Software-as-a-Service, accessible to anyone. To achieve higher reproducibility as well as faster and more cost-efficient analysis, the IKOSA® platform enables our customers a high degree of automation in digital workflows.
- We believe that with our technology it is possible to remove tedious tasks from routine work involving digital imaging.

THE LOCATION

KML VISION is based in Graz, Austria. Graz is an awesome place to live in because it is a vivid city offering great urban lifestyle, it is close to mountains for hiking and skiing, and you can reach the Mediterranean Sea within just 3 hours of driving. Its historic old town is great for taking strolls after work and have a drink in one of the many bars. Our offices are located in walking distance to the centre at Nikolaiplatz 4, 2nd floor, 8020 Graz.
