

KMLVISION

KML VISION is a growing innovative IT company based in Graz, Austria. We offer our employees the opportunity to shape the future of digital image analysis in Life Sciences and Biomedicine, powered by Artificial Intelligence and Deep Learning, delivered by state-of-the-art cloud computing technology via the IKOSA® Platform.

You are eager to create intuitive user interfaces with state-of-the-art web technologies for our next-generation AI-based image analysis software products? Take your chances and join us as

Frontend Software Engineer (f/m/d)

Full-time/Part-time position (Graz), remote work possible, starting May/June 2021

YOUR TASKS

You will become an integral part of our agile software development team and contribute the IKOSA web UI for our international target audience from the biopharmaceutical and medical sciences:

- Prototyping and testing of new UI features in close collaboration with the UX/UI design team.
- Implement new functionality into a sustainable front-end architecture using design patterns.
- Contribute ideas and concepts to create a great experience for our IKOSA users.

YOUR PROFILE

- Flexible team player in a dynamic environment with passion to create innovations.
- Ability to work independently and responsibly.
- Solid knowledge of Angular 8+, or similar frameworks and web application technologies, e.g. HTML5, CSS, JavaScript, TypeScript, Bootstrap, or similar.
- Knowledge of Git SCM, CI/CD, automated testing and integration with existing REST APIs.
- Knowledge or experience with GIS is an advantage.

OUR OFFERS

- Full-time or part-time employment with remote work is possible.
- Become part of a strong team in an interdisciplinary environment.
- Significantly contribute ideas to the product vision and development cycle.
- Flextime and a high degree of self-management.
- Work closely with our UI/UX designers and REST API backend developers.

WHY YOU SHOULD APPLY

- Contribute to the most intuitive user portal for the analysis of big image data.
- Extend your skills and work experience in a professional environment.
- Minimal annual gross salary according to the Austrian collective agreement 2021 for IT is EUR 33,992 for full-time employment (38.5 hours per week).
- Your actual salary depends on your experience and qualification.

ABOUT KML VISION

With a strong scientific background and network, KML VISION is a thriving company, focusing on delivering the latest advancements in automated digital image analysis to the Life Science sector. We develop the IKOSA[®] platform, where Deep Learning technology powers our streamlined, intuitive applications. Hence, our clients immediately benefit from the most recent breakthroughs in Artificial Intelligence right at their fingertips. We create value by automating tasks that previously could only be performed by humans.

- Our passion is to develop high quality image analysis applications for object classification, segmentation, object detection and provide it as a Software-as-a-Service, accessible to anyone. To achieve higher reproducibility as well as faster and more cost-efficient analysis, the IKOSA[®] platform enables our customers a high degree of automation in digital workflows.
- We believe that with our technology it is possible to remove tedious tasks from routine work involving digital imaging.

OUR HEADQUARTERS IN GRAZ

KML VISION is headquartered in Graz, Austria. Graz is an awesome place to live in because it is a vivid city offering a great urban lifestyle, it is close to mountains for hiking, climbing and skiing, and you can reach the Mediterranean Sea within just 3 hours of driving. Its historic old town is great for taking strolls and having an after-lockdown drink in one of the many bars. Our offices are located in walking distance to the centre at Nikolaiplatz 4, 2nd floor, 8020 Graz.
