

**KMLVISION**

*KML VISION is a growing innovative IT company based in Graz, Austria. We offer our employees the opportunity to shape the future of digital image analysis in Life Sciences and Biomedicine, powered by Artificial Intelligence and Deep Learning, delivered by state-of-the-art cloud computing technology via the IKOSA® Platform.*

You are eager to create an outstanding experience of our next-generation AI-based image analysis software products for our users from the Life Sciences? Take your chances now and join us as

## **UI/UX Designer (f/m/d)**

Part-time, or full-time position (Graz/Vienna/Bregenz), remote work possible, starting Aug./Sept. 2021

### **YOUR TASKS**

You will be integrated into our agile software development and product management team to create a convincing user experience for users of our innovative software solutions.

- Creating intuitive and responsive graphical user interfaces for web-applications based on user stories, with particular focus on high usability and self-explicability.
- Describing user interaction and flow within the applications based on our user personas.
- Preparing designs, workflows and graphic assets for the implementation by our frontend team.
- Conducting user research with prototypes and proposing adjustments based on user feedback.

### **YOUR PROFILE**

- Proven work experience as UI/UX designer and/or existing portfolio of reference design projects for software applications.
- Negotiation level in both speaking and writing in English language.
- Experience with screen design and graphic design technologies (Adobe XD, Figma, vector and pixel graphics, CSS, ...).
- Desire to look for best-practice examples and stay informed about the state-of-the-art.
- Experience with enterprise software UI/UX design in Life Sciences or Healthcare is an advantage.

### **OUR OFFERS**

- Work in close collaboration with multi-national internal and external stakeholders in an interdisciplinary environment: R&D, product/process design, customers etc.
- Gain significant knowledge and experience in a future orientated technology, by presenting Artificial Intelligence applications in the most comprehensible way possible to our audience.

### **WHY YOU SHOULD APPLY**

- Reasonable working hours, flextime and a high degree of self-management, with remote work.
- Apply and sharpen your skills and work experience in an authentic, professional environment.
- Minimal annual gross salary according to the Austrian collective agreement 2021 for IT is EUR 27,846 for full-time employment (38.5 hrs/week). Your actual salary depends on your experience and qualification.

## ABOUT KML VISION

With a strong scientific background and network, KML VISION is a thriving company, focusing on delivering the latest advancements in automated digital image analysis to the Life Science sector. We develop the IKOSA® platform, where Deep Learning technology powers our streamlined, intuitive applications. Hence, our clients immediately benefit from the most recent breakthroughs in Artificial Intelligence right at their fingertips. We create value by automating visual inspection and analysis tasks that previously could only be performed by humans.

- Our passion is to develop high quality image analysis applications for object classification, segmentation, object detection and provide it as a Software-as-a-Service, accessible to anyone. To achieve higher reproducibility as well as faster and more cost-efficient analysis, the IKOSA® platform enables our customers a high degree of automation in digital workflows.
- We believe that with our technology it is possible to remove tedious tasks from routine work involving digital imaging.

## OUR HEADQUARTERS IN GRAZ

KML VISION is headquartered in Graz, Austria. Graz is an awesome place to live in because it is a vivid city offering a great urban lifestyle, it is close to mountains for hiking, climbing and skiing, and you can reach the Mediterranean Sea within just 3 hours of driving. Its historic old town is great for taking strolls and having a drink in one of the many bars. Our offices are located within walking distance to the centre at Nikolaiplatz 4, 2nd floor, 8020 Graz.
